

Panasonic

AIR CURTAIN

INVISIBLE AIR SCREEN

Panasonic's Air Curtains are designed to create a powerful high velocity air screen - providing excellent energy, comfort and hygiene control in your environment.

COOL/HEAT RETENTION

Assists to retain conditioned air, allowing minimum temperature fluctuation as the doors are opened, whilst minimising energy wastage.*

DEODORISING

Helps prevent odours and contaminants from transferring from one area to another, such as food odours and exhaust fumes.*

INSECT PROOF

Helps screen out annoying, harmful and germ-laden insects to maintain sanitation standards, and ensure comfort.*

DUST PROOF

Assists to prevent dust and dirt from outdoors, maintaining a clean and healthy indoor environment, for example; retail stores, manufacturing plants and mine sites.*

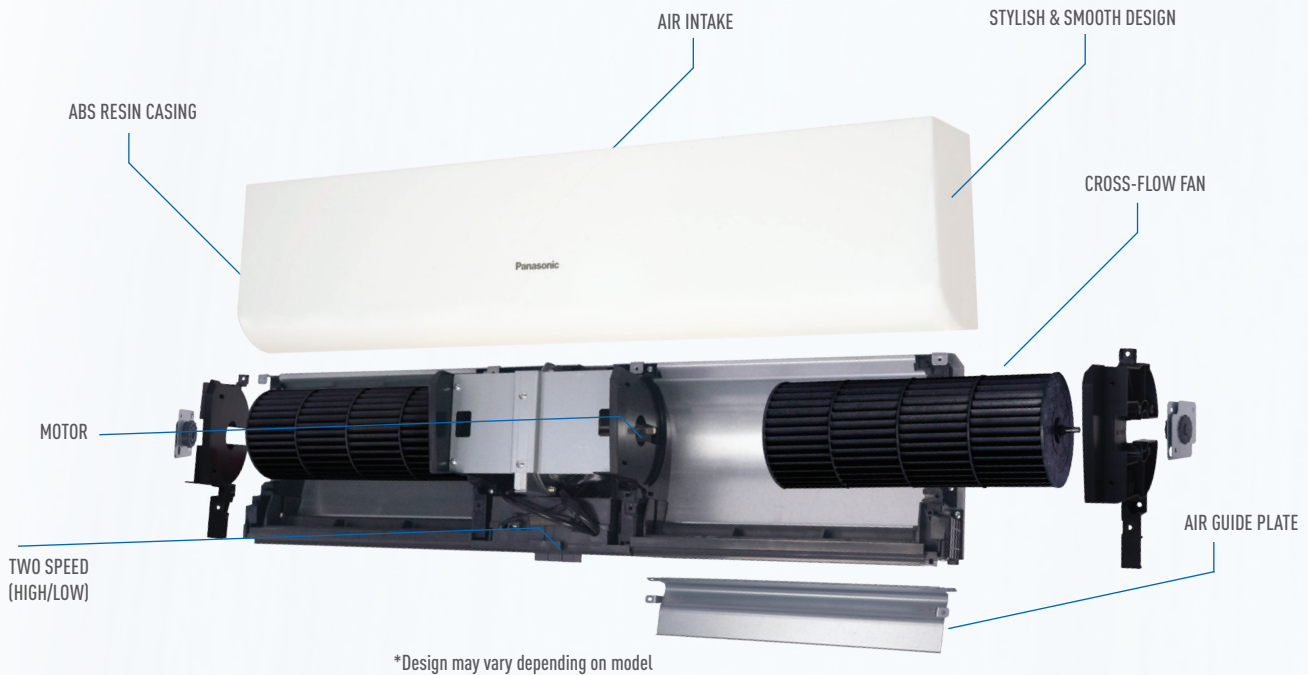

*Subject to type of application and surrounding environment

240V, 1 Phase, 50Hz

PRODUCT FEATURES

- Wide range: 900mm, 1,200mm and 1,500mm (standard and high velocity)
- Modern and stylish smooth design
- Cross-flow fan for high air velocity and air coverage
- Low power consumption through high efficiency motor
- Super quiet noise level only 47.0dB(A)* @ 1.5m on low speed

* FY-3012U118 only

- ABS resin casing enabling high resistance to rust
- Two speeds (High/Low) selectable by a push button switch
- Air deflection vent to adjust air flow direction
- Flexible installation and easy maintenance
- Can be connected to selected Panasonic Air Conditioning systems
- 5 years full parts and labour warranty
